

Write an algorithm and draw the flowchart, to calculate the profit gained or loss occurred considering a Cost price and Selling price.

Q. Write an algorithm and draw the flowchart, to calculate the profit gained or loss occurred considering a cost price & selling price.

→ Algorithm:-

Step 1:- Start

Step 2:- Input cost price (CP)

Input Selling price (SP)

Step 3:- Calculate profit/loss

$$= SP - CP$$

Step 4:- If profit/loss > 0,

then print "profit =", profit/loss.

Step 5:- Else

print "Loss =", -(profit/loss)

Step 6:- End.

Flow chart:-
